SECTION I

INTRODUCTION

The Uttar Pradesh Medical Supplies Corporation Ltd- UPMSCL is a Government of Uttar Pradesh undertaking incorporated under Companies Act, 2013. It has been set up for providing timely and effective Health Care Services to the people of Uttar Pradesh. The key objective of the UPMSCL is to act as the central procurement agency for all essential and specialized drugs, medical Kits for the health care institutions at competitive rates. The Managing Director, **Uttar Pradesh Medical Supplies Corporation Ltd**, SUDA Bhawan, 7/23, Sector-7, Gomti Nagar, Extension, Lucknow-226010, (hereinafter referred as **TIA**) invites e – Tender for of Kits to Uttar Pradesh Medical Supplies Corporation Limited for period of 2 years from commencement of contract. List of Kits to be procured vide this tender is detailed in **schedule of requirement: Section IV**.

Over the last decades, several Kits has been procured and installed in the various health care institutions under the government under different schemes. One of the major problems encountered is the maintenance of the Kits. Site preparation, timely replacement of consumables, calibration of sensitive Kits, up gradation of technology, training to the doctors and paramedical staff- all poses problems. The corporation has been formed by the government to fill in these grey areas and to act as total service providers to the all the government health care institutions. Of course, this mammoth task could be achieved only with the active involvement and support of the manufacturers/dealers of the Kits.

This tender is an e-tender and only on-line bid submission is possible. Lowest price is not the sole criteria for selecting the Kits/supplier. The two bid system, which is followed, has been designed to eliminate those Kits which do not match the technical specifications or not having the proven technology and to eliminate firms that do not have the financial or technical capability to , install and maintain the Kits. i.e., to provide after sales support for a period of minimum 5 years from the date of Supply and to ensure 95% uptime in performance/operation of the Kits.

The payment to the successful tenders will be settled after obtaining a ‘one-month performance certificate’ from the head of the user institution – one-month period is a period of trail run- during which the performance of the Kits will be keenly observed. At the same time, it may be noted that the Corporation is not the agency finalizing the requirements of Kits and their technical specifications. These parameters are finalized by the user institutions and funding agencies and forwarded to the corporation for procurement. On our side, we ensure that the technical specifications are not biased towards a particular Kits/firm, through consultations during the pre-tender meetings with the prospective bidders. Amendments in the terms and conditions of the tender documents may be resorted to on the basis of expert advice to see that more than one firm qualifies for the final round. Technology specific specifications/conditions and entertaining direct purchase will be undertaken, if and only if, the user agency certifies the Kits required is of proprietary nature. Since the Kits procured are dealing with precious human life in government hospitals, depended by the poor and

downtrodden of the society, it is our endeavour to ensure that most modern, but proven and durable Kits are procured and supplied. The tender documents are prepared after assessing the market to meet such objectives.

Looking forward for a long standing relation with you.

Best wishes,

**Managing Director, UPMSCCL
(Tender Inviting Authority)**
